

Turn Markers

Into Energy!

February 25, 2016

Dear Parents, Teachers, and Students,

I'm excited to tell you about a very special program I'm coordinating at our school in conjunction with Crayola. It's called Crayola ColorCycle - an amazing new program devised to turn used markers into energy!

All around Innovations Academy students and teachers will be collecting used markers that are ready to be discarded. The markers will be sent to a facility where they will be converted into clean fuel. This fuel can be used to power vehicles, heat homes, cook meals and more!

Please help support our efforts by sending in any used markers you may have around the house - even non-Crayola brands. A Drop-off box will be located near the front gate of the school for you to deposit the markers. There will be a second box in the office work room for teachers and staff.

Thank you in advance for participating! With our help and the actions of others across the country, the Crayola ColorCycle program can keep tons of plastic out of landfills each year.

Remember, don't throw out that used marker—ColorCycle it!

Sincerely,

Hope Renn Gunther
